Find out how our MSW program can meet your career and educational goals for professional social work. We currently offer full-time, part-time and advanced standing options for study on our Burlington campus. Our program curriculum emphasizes social justice, human rights, critical social construction, strengths-based orientation to practice, and prepares students for practice with diverse populations in a variety of settings.

During the Informational Session, faculty, alumni, and current students will be available to answer questions about the curriculum, field placements, and the application and admissions processes.

Light refreshments will be provided.
